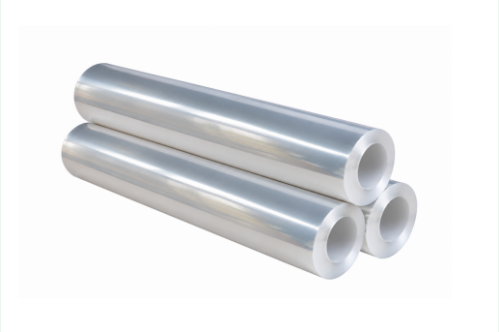
PRODUCT INFORMATION SHEET

PCR Hand Stretch Film

HAND FILM

Our 40% PCR hand stretch film contains 40% post-consumer recycled resin. It has good cling and puncture resistance to secure pallet loads for manual wrapping, helping you hit sustainability targets.



Key advantages

- Greater holding force and dependable cling
- Superior puncture resistance at sharp corners
- Lighter rolls for easier handling
- 30% built-in pre-stretch
- Available for 1.5, 2 and 3 inch cores

Indicative specifications

Parameter	Stretch rate	Net weight	Rolls / carton
10 µm × 500 mm × 760 m	200% (1 m–2 m)	3.5 kg	4
12 µm × 500 mm × 630 m	200% (1 m–2 m)	3.5 kg	4
15 µm × 500 mm × 500 m	200% (1 m–2 m)	3.5 kg	4

Width, core and roll length can be tailored to manual wrapping requirements.
